MISUSE OF OFFICE COPIER PAPER: Paper delivered to the Lanier copiers must not be used for any purpose other than making copies on Lanier copiers. The costs of the machine, maintenance, and all other supplies (staplers, toner, etc.) are included in the cost of office copy paper; this paper is more expensive than paper issued for typing, fax machines, or laser printers. Paper for typing, faxing, and laser printers should be requisitioned from your Logistics Service Center (NASA/SGS only), under Stock No. 7530-01-335-2623. Contact Ann Gary, 867-9103 if you have any questions. (IT-D1)

AMMONIA NOTICE: Ammonia Operations will be conducted in the Vapor Containment Facility (VCF) July 10 thru July 14, 2006. During these operations, ammonia vapors will be vented from the roof of the SSPF. This venting could produce an ammonia odor in the immediate Industrial Area. Most of these operations will take place at night. Because of its pungent odor, you can detect ammonia vapors at levels well below those that pose a serious health hazard. Although the risk of exposure to unsafe levels of ammonia is remote, ammonia vapors can still irritate the eyes and upper respiratory tract. If you smell ammonia vapors at anytime, please leave the area as quickly as possible, and notify Boeing Operations at 867-5800. If you enter the East end of the SSPF while ammonia operations are being conducted, you may see flashing amber lights. Flashing amber lights mean, EXERCISE CAUTION when entering or exiting the SSPF. If you see flashing red lights outside the east end of the SSPF, DO NOT ENTER THE AREA OUTSIDE THE EAST END OF THE SSPF. If you see flashing red lights inside the doors at the east end of the SSPF, DO NOT EXIT THROUGH THESE DOORS. Under these circumstances, enter and exit the SSPF from the North or West doors. Do not pull the fire alarm just because you smell ammonia. Questions to Ed McKnight, 867-5441 (SA-C)
